

I understand the K-Love has potential to be replaced by LPFM - please do NOT let this happen. K-Love is a positive influence to so many that are struggling to see the good in the world. It is a positive reflection of good things that God and people and do together. It gives everyone hope for a better world and does not poison the minds of those that listen with any negative, violent or sexual content. It is realistic and truthful - not insulting or ignorant. K-Love has helped me by listening to callers share their lives and confirming things that happen to us all and how we can call on and count on God to always help us up. If we lost this broadcast, it would be a tragic loss for the community as I know of many that I have turned onto K-Love and others that have been devoted listeners for years. K-Love is a service that provides faith and hope and things of public interest to all. God is good and he is the only way to contentment, peace and justice. Please allow K-Love to continue to spread the word and to reach those that continue to struggle with inner peace. God Bless.
